Community Grants Funding

Local Event Funding is determined by Community Boards. Application forms and information brochures are available from your nearest Council Service Centre, Civic Offices or on the Council's website – www.ccc.govt/community/funding/

The Community Grants Group also provide small funds for developing communities. If you feel your event's purpose is to develop your community please contact Michael.mcnabb@ccc.govt.nz for information. Remember – your event will be assessed against a whole range of community funding projects, not just events.
